

Balaji Aadesh

Software Developer

• Portfolio • GitHub • LinkedIn • Email • +91 7804946631

Software Engineer with **2.5+ years** of experience building and deploying production-grade full-stack applications. Strong experience in owning end-to-end features, performance optimization, **Docker-based deployments**, and **CI/CD pipelines**.

EXPERIENCE

NABLE INVENT SOLUTIONS PVT. LTD. Software Developer | OCT 2023 - PRESENT
Bilaspur, Chhattisgarh

Key Projects:

CUSTOMER RELATIONSHIP MANAGEMENT (CRM) [Explore now →](#)

- Developed and maintained a CRM platform with quotation management, drag-and-drop lead pipeline, and branch-level user access, supporting daily sales operations and improving lead tracking efficiency by **25%**
- Implemented scalable state management using **Redux Toolkit**, reducing unnecessary re-renders and improving data consistency across complex CRM workflows.
- Expanded app capabilities by integrating three third-party APIs, enhancing user experience and increasing user retention by **25%** within six months.
- Optimized performance using **useMemo** and debouncing, resulting in **20% faster load times**
- Containerized frontend and backend services using Docker and deployed the application with Nginx as a reverse proxy, ensuring consistent environments across development and production.
- Configured **Nginx as a reverse proxy** to route traffic between services and implemented automated deployments using **GitHub Actions CI/CD**, reducing manual deployment effort and improving release reliability

ERP — FINANCE & LEASE MANAGEMENT [Explore now →](#)

- Designed and developed a full-scale **ERP system** for real estate operations, covering the complete lifecycle from property onboarding to lease management, invoicing, and financial reporting.
- Built revenue tracking, payment status monitoring, and financial reporting dashboards for business stakeholders
- Built core modules including **Properties, Units, Leads, Tenants, Lease Management, Finance, and Procurement**, enabling centralized management of large real estate portfolios.
- Built UAE-compliant lease and invoicing workflows with VAT calculation, payment tracking, and financial reporting.
- Designed and executed a **CI/CD pipeline using GitHub Actions** to build and deploy backend services, enabling faster and more reliable releases for business-critical modules

EMPLOYEE SELF SERVICE SYSTEM (ESS) [Explore now →](#)

- Built Employee Self-Service platform with notice boards, vlogs, and attendance tracking
- Designed holiday and meeting calendar, reducing scheduling conflicts by **40%**
- Created a salary sheet management system, allowing employees to view and track their earnings conveniently

DAVE'S BROTHER TECHNOLOGY Web Developer Intern | JAN 2023 - APR 2023
Jabalpur, Madhya Pradesh

- Developed full-stack web features using **React.js**, **Node.js**, and **Express.js**, contributing to end-to-end feature delivery from UI to backend logic

TECHNICAL SKILLS

Frontend:

- React.js
- Redux Toolkit
- HTML5 / CSS3
- Tailwind CSS

Backend:

- Node.js
- Express.js
- REST APIs

Databases:

- MongoDB
- MySQL

DevOps & Tools:

- Docker
- Nginx
- CI/CD
- Git / GitHub
- GitHub Actions
- PM2

Authentication:

- JWT
- RBAC

EDUCATION

ITM University, Gwalior

Bachelor of Technology in Computer Science
2019 – 2023
CGPA: **7.5/10**

Sri Chaitanya Junior College

Senior Secondary (XII)
2017 – 2018
Percentage: **84.3%**

Sri Chaitanya School

Secondary (X)
2015 – 2016
Percentage: **87%**
